Dear Ms. Driggs,

Fridley Roofing and Remodeling has provided service to us twice in the past two years.

- Gutters in 2001
- Complete tear off and re-roof in 2003

We were very please with the work performed in both of our repairs and would highly recommend them to anyone who may inquire about their professionalism and attention to detail.

The roofer even walked my yard for fifteen minutes looking for any nails that may have been laying in the yard, after the installation was complete.

They are a wonderful organization, and I wouldn't hesitate a minute to use them again.

Sincerely,

Jeff & Koreen Firnstahl
